LHS THEATRE BOOSTERS SURVIVAL GUIDE FOR THEATRE PARENTS

HELPFUL TIPS FOR PARENTS:

- 👂 Theater is where you go to watch movies. Theatre is what you watch on stage.
- 👂 High school theatre requires a whole other level of commitment than middle school theatre. Share a calendar or add all the dates in your personal calendar so you'll know where your child needs to be. Be prepared. #LionKing #theatreparentsknow
- 👂 Your child will practice singing, dancing and acting long before they actually audition for a role. You didn't like silence in your house, did you? Buy earplugs.
- 👂 Audition day is nerve-wracking. Your child may not get good rest the night before. At least make sure they eat so they don't pass out on stage.
- 👂 During the time between auditions and cast list release, you and your child will be emotional wrecks. Find any kind of distraction so you'll stop refreshing the website. Like, go outside or something. Say lots of prayers. Stock up on antacids.
- 👂 When the cast list is up, your child will have the complete cycle of emotions. Even if they get the role they wanted. Say nice things. Give hugs. Have ice cream on hand.
- 👂 You wanted to have a nice weekend/plan a vacation/spend time/have dinner together with your family? Nah, your kid has rehearsal. It'll be worth it. Promise.
- 👂 Pay production fees. Help your kid sell ads for the theatre program. Get your car washed during the LHS Theatre car wash. Donate. Volunteer. A good show isn't cheap.
- 👂 When your thespian comes home after a long day of school and rehearsal, the reality of homework sets in. The reality of moody teenager does too. Give support but don't let down your guard on grade expectations. Theatre kids must be good students too.
- 👂 On Sundays, let them sleep in and then get some healthy food and exercise.
- 👂 The Theatre Booster club plans lots of events for your kids. We also feed your kids during tech week. Help out where you can. We'll gladly take your time or your money.
- 👂 Tech week is also called "hell week" for a reason. Your kid will work harder than you ever thought they could. Give lots of love. Make sure their alarms are set. Make them drink water. Gift them with an emergency kit of toiletries and snacks since they'll pretty much live at the school. Then invite everyone you know to see your child on stage.
- 👂 Bring tissues to the show. Either you or your kid will cry. Also, flowers are nice.
- 👂 Your child won't leave immediately after a show. They are required to strike and can't leave until dismissed. They're also celebrating a great show with their friends.
- 👂 After the show run ends, your child may feel sad. It's like the morning after Christmas and they've bonded with the cast like war buddies. The good news is that they won't have much time to mourn because auditions for the next show happen quick.
- 👂 Love the experience. Support your child. Enjoy the show!
